- * Sight gauges on every sheet

DELIVERY

Silos up to 900 bushel - \$2.75 per km
 Silos 1100 bushel plus - \$3.85 per km
(Prices are one way excluding GST)
 Minimum delivery fee - \$300 plus GST

UPON DELIVERY OF YOUR SILO

Silos are to be installed on a level reinforced concrete pad of adequate strength (*minimum 125mm thick*) and bolted down using dynabolts, which we will provide and bolt down for you on delivery. Uneven or inadequate pads will result in silo damage. If the pad is not dead flat, the gap between the base ring and the pad should be packed with steel shims under each leg. ***We will not take responsibility for damage caused by unsatisfactory pads.***
